THIRTY-SEVENTH YEAR, NO. 140 BISMARCK, NORTH DAKOTA, THURSDAY, JUNE 14, 1917. FIVE CENTS

WAR FOR EXISTENCE---WILSON

Greece Now Under Control of Allied Armies

DON'T BE MISLED BY PEACE PLOT SAYS PRESIDENT

Flag Day Address Appeal to Arouse United States to Importance of War Step

AIMS AND PURPOSES OF STRUGGLE EMPHASIZED

Nation Has Entered War for Democracy and to Avenge Insults of Germany

Washington, June 14.—President Wilson warned the American people in a flag day address on the Washinton monument grounds today that Germany has carried into effect the greater part of her immediate plan of conquest and is now negotiating a new "intrigue of peace" designed to end the war while her aggressions are secure.

Before a great audience here today for a flag day celebration, President Wilson declared anew the aims and purposes of the United States in entering the world war.

Standing in the shadow of the great monument erected to the everlasting memory of George Washington, the president told thousands gathered on the grassy slopes about him that the United States had entered the war, not alone to keep the world safe for democracy, but also because the "extraordinary insults and aggressions of the imperial German government left us no choice, but to take up arms in defense of our rights as a free people and of our honor as a sovereign government."

President Wilson warned against permitting Germany to end the war now by "intrigue of peace," while her aggressions were secure.

Belt of Power

All the Central empires, the President declared, have been cemented into one great autocracy-ridden empire, "throwing a broad belt of German military power and political control across the very center of Europe and beyond the Mediterranean into the heart of Asia. "This achieved," he said, it is easy to understand why Germany is fostering a propaganda for an early peace.

"Peace, peace, peace has been the talk of her foreign office now for a year or more," said the President. "A little of the talk has been public, but most of it has been private, through all sorts of channels it has come to me and in all sorts of guises. The military masters under whom Germany is bleeding, see very clearly to what point fate has brought them. If they can secure peace now with the immense advantages still in their hands which they have up to this point apparently gained, they will have justified themselves before the German people, they will have gained by force what they promised to gain by it."

The President recited again the German aggressions which drove the United States to war. He declared the purposes for which American soldiers now carry the stars and stripes eventually mean the undoing of the whole world. He spoke in full as follows:

Emblem of Unity

"My Fellow Citizens: We meet to celebrate Flag Dya. Because this flag which we honor and under which we serve is the emblem of our unity, our power, our thought and purpose as a nation. It has no other character than that which we give it from generation to generation. The choices are ours. It floats in majestic silence over the hosts that execute these choices, whether in peace or in war. And yet, though silent it speaks to us of the past, of the men and women who went before us and of the records they wrote upon it. We celebrate the day of its birth, and from its birth until now it has witnessed a great history, has floated on high, the symbol of great events, of a great plan of life worked out by a great people. We are about to carry it into battles, to nail it where it will draw the fire of our enemies. We are about to bid thousands, hundreds of thousands, it may be millions, of our men, the young, the strong, the capable men of the nation, to go forth and die beneath it on fields of blood far away—for what? For some unaccustomed thing. For something for which it has never sought the fire before. American armies were never before sent across the sea. Why are they sent now? For some new purpose, for which this great flag has never been carried before, or for some old familiar, heroic purpose, for which it has seen men, its own men, die on every battlefield upon which Americans have borne arms since the revolution.

Never Sent Before

Some Questions

"These are questions which must be answered. We are Americans. We in our turn serve America, and can serve her with no private purpose. We must use her flag as she always used it. We are accountable at the bar of history and must plead in utter frankness what purpose it is we seek to serve.

Contribute to Hundred Million Red Cross Fund And Help Win the War

Editor's Note.—This appeal is timely as a rallying note for the Burleigh county campaign, which opens next Monday. Read Roosevelt's stirring appeal and then send in your contribution to the war relief fund. DO IT NOW!

In his appeal for support for the Red Cross at Lincoln, Neb., today, Colonel Roosevelt said:

"The most important thing is to send abroad at the earliest possible moment a great fighting army. Second only to the army in the work of winning this war comes our Red Cross. Indeed the importance of this work is so great that the president of the United States has set apart next week—from June 18 to 25—as a period for sacrifice and unselfish generosity, a week in which the whole American people will be asked to join in raising funds to enable our Red Cross to perform its vast and indispensible duties in this war.

"The president has also commissioned several of the ablest business men of the country as a war council of the Red Cross, to administer this service on behalf of a stricken world. This war council tells us that a fund of $100,000,000 must be raised at once in order to meet even the most urgent needs."

Summons to Americans.

"Here, indeed, is a summons to every American. It is an enormus sum of money; but what comfort can we take in withholding that or any other sum of money if it is needed to relieve the suffering of our own sons or the sons of our allies, who are fighting for all that makes life worth living.

"Into our Red Cross without stint should be poured a heartfelt offering of thanksgiving that we are permitted to join in this great service to all mankind. Our soldiers and sailors will do their part without flinching; we may rest assured of their courage and fidelity. The Red Cross offers to us who are not allowed to fight, the opportunity for sacrifice and for help.

TO RED CROSS WAR RELIEF FUND.

H. P. Goddard,
Bismarck, N. D.
Enclosed find contribution of $..... for special Red Cross war relief fund.
Name.....
(Cut out here)

Don't Realize It.

"We little realize what is before us. Our own sons and brothers will soon be going into battle. They will be 3,000 miles from home, in a land already wasted by war, a land threatened by famine, a land smitten by disease. They tell us that in many cases today the wounds of soldiers in France must be tied up with newspapers for want of the necessary surgical bandages. When our own men are wounded—as they surely will be in great numbers—are we going to allow them to suffer yet more because we fail to provide those things which can at least mitigate distress? Surely not! But we must do it in advance. If we wait it may be too late. Do it now!

"Our Red Cross must hot only care for the shattered bodies of our wounded men; it alone can become a foster parent to them in the trying conditions they are sure to face when they are convalescent from wounds or recovering from exhaustion. We shall soon have an army of a million soldiers. When they go to France they must have homes in which to rest and to be cared for and to recover. The generosity of our whole people must make it possible for our Red Cross to provide for them.

Burden a Heavy One.

"In no previous war have the innocent non-combatants had to bear so terrible a share of its physical suffering. And it is through our Red Cross that we can show to the nations of the world how the great heart of the American people goes out to them in their distress.

"France—proud, brave, bleeding from ghastly wounds needs us sorely. Tuberculosis is raging throughout her land. Fifteen hundred of her towns and villages have been razed to the ground by the calculated barbarity of the invaders. Millions of her people are homeless and starving, bereft even of the barest covering for their bodies, of stoves, of utensils with which to cook or eat, of agricultural implements of animals—indeed of the simplest elements of civilization. And to us alone can these people come for help; we alone have the abundance with which to supply their direst needs.

NEW SALEMITE ARRAIGNED FOR EMBEZZLEMENT

Fargo N. D. June 14.—Charged with violating the national banking act in falsifying bank accounts, William Behrbaum, assistant cashier of the First National bank of New Salem, was placed under arrest here today by a United States marshal and arraigned before United States Commissioner Green.

Behrbaum waived examination and was released on bail in the sum of $10,000, which was promptly furnished.

The amount embezzled is said by federal authorities to be $5,500.

WILL ALLOW DEPOSED CZAR TO CAST BALLOT

Petrograd, June 14.—After a prolonged debate in the council, which is now sitting for drafting up rules governing elections for the delegates to the assembly, and considering the eligibility of voters, it was decided to allow Nicholas Romanoff, the former emperor, and members of the former imperial family the privilege of voting. Many of the speakers argued that to deprive Nicholas of the franchise would be construed as an act of political revenge and inasmuch as the Romanoff family had abdicated and his successors had declared themselves willing to abide by the wishes of a constitutional assembly, it would be unfair to withhold from them the right of voting.

7 STORY BLOCK IS BLOWN UP; 36 MISSING

New York, June 14.—Thirty-six persons were unaccounted for this morning, when search was begun of the ruins of the seven story mixing building of the American Sugar Refining plant, in the Williamsburg section of Brooklyn, which was ripped apart late last night by an explosion. It was believed half of these were foreigners who escaped and fled to their homes.

Fifty Are Killed In Explosion

London, June 14.—Fifty persons were killed and many persons were injured by an explosion at Ashton-under-Lyne, Chancellor Law announced in the house of commons today. Ashton under-Lyne is a manufacturing town near Manchester.

A number of persons injured in yesterday's attack on London by German aeroplanes died during the night.

Firemen, ambulance workers physicians and nurses were engaged throughout the night in the search for the victims. There were pathetic scenes in hospitals, the police stated, where women and men waited for hours in the hope of receiving word of missing relatives.

BURLEIGH WILL TAKE MORE THAN $100,000 BONDS

Subscription Now in Excess of $90,000—Determined Drive Made for Increase

BISMARCK SHOWS WELL AMONG STATE'S CITIES

Capital Has Taken $75,000 of Liberty Loan—Campaign Closes Tomorrow Night

NEED $200,000,000 MORE.

Washington, June 14.—Subscriptions to the Liberty loan reported to the treasury department at 1:00 p. m. totaled $1,843,000,000. It was announced that tomorrow no figures would be given out until final figures for the total subscriptions are assembled after the books close tomorrow noon.

With but one day left of the big Liberty Loan drive, Burleigh county comes down the home stretch with subscriptions in excess of $90,000.

Bismarck, with $75,000 worth of bonds applied for, ranks high with other North Dakota cities.

The county as a whole has done its part, and is expected to prove strong on the finish.

Complying with the request of P. M. Kerst of Minneapolis reserve bank, the various banks of the city will have representatives at the banks this evening to receive subscriptions to the Liberty loan.

A determined campaign is being made today in every town and hamlet in the county to increase the quota. Individual subscriptions are piling in on the banks. It is anticipated that the last 24 hours of the drive will be productive of one of the campaign's biggest days' business.

Closes Tomorrow.

The campaign closes tomorrow night. It is important that applications be in, in order that Bismarck and Burleigh may take their place in the front ranks when North Dakota's returns go to Washington. Any bank, any Boy Scout will accept applications for Liberty Loan bonds, in any denomination from $50 up, cash down, or on a liberal installment plan. In-

Can Townley Answer These

Why such close union between I. W. W. leaders and the Non-partisan League attorney, Arthur Le Seuer?

What advantage has the North Dakota farmer in treating with the I. W.W.?

Does the League propose to commit the North Dakota farmer to a payment of a minimum wage of $4 a day for the next harvest and $60 a month for general farm work?

Is not the Agricultural Workers' union an affiliated unit of the I. W. W.?

Has not Mr. Bowen, your henchman, been an organizer of or affiliated with the I. W. W.?

Will you allow Bowen to explain why all legislation aimed to prevent depredations upon farmers by the I. W. W. at harvest time was killed in secret caucuses last winter?

Why do you favor forcing the present generation to pay for the war and urge a bond issue stretching over several decades to build state owned enterprises?

Will you explain the League's grain grading bill to the farmers of Morton county which places a tax of $500,000 upon the backs of the farmers of this state?

Is it patriotic to force upon the government acceptance of your socialistic program as the price of your allegiance to the Stars and Stripes?

If the federal government does not accept your ideas will you continue to discourage farmers of North Dakota from doing their duty as patriots?

Are you a still a member of the Socialist party in good standing?

PARIS TENDERS GEN. PERSHING GREAT OVATION

No Conquering Hero Ever Could Have Hoped or Received Such Reception

CROWDS OF PARIS FRANTIC WITH JOY

American Officers Buried Under Flowers As They Ride Through Streets

Paris (delayed), June 13.—Paris welcomed General Pershing and his staff this afternoon with an outburst of spontaneous enthusiasm. No conquering hero returning home could have hoped for or received such a tremendous reception as greeted the American commander as his automobile threaded through hundreds of thousands of cheering people.

Frantic Crowd.

Paris, particularly the French authorities, had planned for a great reception, but it is doubtful if even the most optimistic pictured the almost frantic crowd that all but blocked the passage of the automobile. Men and women cheered themselves hoarse and flung masses of flowers into the cars. Parisians declared that the only event in their life time that approximated the reception in enthusiasm was that accorded to King George in 1914.

Gen. Joffre in Party.

When the special train reached the station, General Pershing and Field Marshal Joffre were the first two to appear. Behind them came American officers with French officers as hosts. The first shout of welcome became a continuous roar that seemed to shake the station to its foundation. The police hurriedly began to clear a lane down which half a dozen automobiles moved at a snail's pace between frantic throngs.

Old Glory Waves.

From hundreds of windows American flags were waved by men, women and children. French girls with flags pinned on their breasts and their arms filled with flowers bought from their scanty savings, fairly fought for a chance to get near enough to the machines to hurl their offerings into the laps and on the shoulders of the astonished American officers.

Want to Shake Hands.

The Americans apparently had not imagined the height to which Parisian enthusiasm could arise. Boys, men and girls, and even some old women, struggled to jump on the car to shake hands with General Pershing.

The demonstration was more significant because it came from the people, who for the time-being seemed to almost forget war was in progress.

It was not General Pershing alone who came in for unprecedented ovation, for every American caught sight of was almost burdened with flowers. Crowds shouted themselves hoarse by cheers for America. From every housetop, from every window, from every elevation, and from the thousands upon thousands who choked every thoroughfare in the vicinity of the line of march, was hurled a welcome that no American in Paris will ever forget.

700 GUARDSMEN WILL RECEIVE $50,000 AS PENSIONS FROM STATE

Fifty thousand dollars will be distributed July 1 in sums ranging from $50 to $80 in pensions to 700 North Dakota national guardsmen who served from July, 1916, to February, 1917, on the Mexican border. The satte auditor's force today is completing on the Mexican border. The state has appropriated the necessary funds, and the boys will cash in July 1. A majority of the guardsmen will get $50. The pension is rated at $10 the month for the period of actual service.

GET TWO JURORS FOR DUNN TRIAL

St. Paul Minn. June 14.—Two jurors were accepted during the morning session of the first day's trial of Frank J. Dunn on a charge of first degree murder for the death of his wife Mrs. Alice M. Dunn. Thirteen talesmen were examined during the session, many of whom had positive opinions as to the guilt of the defendant.

Entente Army Seize Ports Of Greece

Prepare to Safeguard Cities and Crops Following Abdication of King

ALLIES MARCHING TOWARD ATHENS

Athens, June 14.—Entente forces are landing at Piraeus and Castella. Some of the troops are occupying the heights near Pharlerum Bay, while others are marching to Athens.

Entente troops have been landed probably for the purpose of preserving order in Athens and giving support to the new government to be set up in consequence of the abdication of King Constantine. Piraeus is the port of Athens, five miles from that city.

Entente troops have also been landed farther north for the purpose of safeguarding the ripening crop of silage. The French war office yesterday announced the occupation of the important railroad town of Larissa, 130 miles northwest of Athens, by French cavalry.

The proclamation of former King Constantine announcing his abdication was posted throughout the streets of Athens and says:

"Obeying the necessity of fulfilling my duty, I am departing from my beloved country with the heir to the throne and am leaving my son, Alexander, the crown. I beg you to accept my decision, as the slightest indecision may lead to a great catastrophe."

Leaves Athens.

Former King Constantine left Athens late today to embark on a British warship.

Constantine was accompanied by the former queen and crown prince and members of the family. They left the city by motor car. Professor Georgios Streit, former advisor of the Greek foreign office, went with Constantine as his secretary.

TELEGRAPHS REGRET.

The Hague, June 14.—A Cologne dispatch says the news of King Constantine's abdication created a painful impression at German headquarters.

The emperor expressed great chagrin and sent his brother-in-law and Queen Sophia a message of sympathy.

TOWNLEY READY TO SELL LEAGUE TO THE I. W. W.

Collusion Between President of "Farmers" Organization and Arthur Le Seuer

NONPARTISANS ASKED TO DEAL WITH ORGANIZATION

Minimum Wage of $4 the Day in Harvest and $60 the Month Year Round

The stage seems set for a union of the Nonpartisan league to the Industrial Workers of the World.

President A. C. Townley has done his part by procuring at the Fargo league convention the appointment of a committee to deal with the "Agricultural Workers' union."

Arthur LeSeuer, former socialist mayor of Minot, attorney for the Industrial Workers of the World in their iron range riots, and attorney for the Nonpartisan "farmers' league" of North Dakota, representing the latter organization before the Agricultural Workers' union at Kansas City last week, procured the appointment of a committee to confer with President Townley's committee.

At this conference will be set hours, wages, conditions of labor and other hard-and-fast rules by which the North Dakota farmer, through the united power of the Nonpartisan league the I. W. W. and the Agricultural Workers' union will be compelled to abide.

Some of these conditions are:

An eight-hour day with time and a-half for overtime.

A minimum wage of $4 the day during the harvest.

A minimum wage of $60 the month for general farm work.

Arbitration by a committee of the union of all differences.

An agreement on the part of all farmers to recognize the union.

A CLOSED SHOP in North Dakota, which will prohibit the employment of independent labor.

(Continued on Page Three)

GERMAN LINE IN BELGIUM IS CRUMBLING

Allies Are Rapidly Following Up Advantage of Messines Offensive

PRESSURE ON TEUTONS' LINE HARD TO BEAR

On French Front There Is Comparative Quiet Varied by Brief Counter Attacks

(By Associated Press.)

The German line in Belgium is crumbling under the new British offensive. Evidence of this appears today in the announcement by London of a German retreat on a two-mile front southwest of Warneton. After wiping out the Messines-Wytschaete salient in the crushing attack last week, General Pluner continued attacking the Germans from time to time east of Messines, and gained ground there. Further south the British also have exerted pressure upon General von Arnim's line.

Pressure Hard to Bear.

Having lost the last of the commanding artillery and observation positions in this region, when the Messines ridge fell into British hands, the Germans are finding the pressure at some points beyond their ability to meet. One of the first results has been the abandonment of important sections of their first line between the river Lys and St. Ives. General Haig announces that the British are following the Germans and, moving forward east of Ploegsteert wood and near Gaspard village.

On the French front conditions remain comparatively quiet. The Germans, after bombardments, attacked French posts in the Aisne region and northwest of Verdun. The French easily repulsed these assaults.

RUSSIANS GREET ROOT MISSION IN PETROGRAD

Petrograd, June 14.—A large delegation of Russians and Americans greeted the Root mission on its arrival here yesterday. A guard of troops stood at attention as the special rolled into the station. United States Ambassador Francis presented Foreign Minister Tereschtenko to the chief members of the commission. The commission was escorted to the winter palace of the former emperor, where the principals were lodged.

The Americans will be formally presented to the provisional government Friday.

CONNERY ROBBED OF PURSE BY THOSE WHO KILLED HIM

Minneapolis, June 14.—Testimony indicating the slayers of Policeman Connery had taken $5 from the dying man was given in the trial of Frank McCool, charged with the policeman's murder, here today in the district court. Mrs. Connery, widow of the slain man, asserted that on the morning of the tragedy he left home with $5, with which to buy necessities for the family. No purse was found when his body was discovered at Fridley, many days later. Mrs. Connery, who was on the stand for the second time, was a calm witness, but time and again, her testimony was punctuated by outbursts of weeping on the part of women spectators.

ZEPPELIN DESTROYED IN NORTH SEA

London, June 14.—Zeppelin L 43 has been destroyed over the North sea by naval forces, Chancellor Bonar Law announced today in the house of commons. The admiralty reports that no survivors of the Zeppelin were seen.

RECRUITING FOR SECOND OFFICERS' CAMP TOMORROW

North Dakota Will Have Opportunity to Send 113 Students to Fort Riley

NO PREFERENCE CAN BE GIVEN OLD APPLICANTS

Candidates Who Desire to Go to Kansas Post Must Make New Applications

North Dakota will be entitled to 113 "students" in the second officers training camp for this division which is to open August 27 at Fort Riley, Kans., and to continue until November 26. Instructions covering recruiting for this camp were received at headquarters of the Military Training Camps association for the Sixth judicial district today. Wharton Clay, executive secretary, advises that the special object of the Fort Riley camp will be to train a body of men fitted for the more responsible positions of command in the new army. It is not likely that any men under 21 years will be accepted, and exceptional character and proven ability in their various occupations will be required.

Recruiting Begins Friday

Recruiting for the second series of officers' training camps will begin tomorrow. Applications will be made on regulation blanks furnished by the war department, as for the previous camp. Men who applied for the first series of camps and were not authorized to attend must reapply. They will be given no preference.

The states whose candidates will go to Fort Riley, with the quotas to be assigned, are: Minnesota, 361; North Dakota, 113; South Dakota, 109; Nebraska, 209; Iowa, 355; Kansas, 288; Missouri, 528; Colorado, 152.

Ohio, Indiana, West Virginia and Kentucky train at Fort Benjamin Harrison, Ind.; Illinois at Leon Springs, Tex.; Wisconsin and Michigan at Ft. Logan H. Roots, Ark.

TOBACC HABIT EASILY OVERCOME

A New Yorker, of wide experience, has written a book telling how the tobacco or snuff habit may be easily and quickly banished with delightful benefit. The author, Edward J. Woods, 1423 M. Station E, New York City, will mail his book free on request.

The health improves wonderfully after tobacco craving is conquered. Calmness, tranquil sleep, clear eyes, normal appetite, good digestion, manly vigor, strong memory and a general gain in efficiency are among the many benefits reported. Get rid of that nervous, irritable feeling; no more need of pipe, cigar, cigarette, snuff or chewing tobacco to pacify morbid desire. It

Starting Right

DON'T BE MISLED BY PEACE PLOT

Continued from page 1.

"It is plain enough how we were forced into the war. The extraordinary insults and aggressions of the imperial German government left us no

No Respecting Choice

self-respecting choice, but to take up arms in defense of our rights as a free people and of our honor as a sovereign government. The military masters of Germany denied us the right to be neutral. They filled our unsuspecting communities with vicious spies and conspirators and sought to corrupt the opinion of our people. In their own behalf. When they found that they could not do that, their agents diligently spread sedition amongst us and sought to draw our own citizens from their allegiance -- and some of these agents were men connected with the official embassy of the German government itself, here in our own capital. They sought by violence to destroy our industries and arrest our commerce.

Tried to Incite

They tried to incite Mexico to take up arms against us and to draw Japan into a hostile alliance with her, and that, not by indirection, but by direct suggestion from the foreign office in Berlin. They impudently denied us the use of the high seas and repeatedly executed their threat that they would send to their death any of our people who ventured to approach the coasts of Europe. And many of our people were corrupted. Men began to look upon their own neighbors with suspicion and to wonder in their hot resentment and surprise, whether there was any community in which hostile intrigue did not lurk. What great nation in such circumstances would not have taken up arms? Much as we had desired peace, it was denied us, and not of our own choice this flag under which we serve would have been dishonored had we withheld our hand.

"But that is only part of the story. We know now as clearly as we knew before we were ourselves engaged, that we are not the enemies of the German people and that they are not our enemies. They did not originate or desire this hideous war or wish that we should be drawn into it, and we are vaguely conscious that we are fighting their cause, as they will some day see it, as well as our own. They are themselves in the grip of the same sinister power that has now at last stretched its ugly talons out and drawn blood from us. The whole world is at war because the whole world is in the grip of that power, and is trying out the great battle which shall determine whether it is to be brought under its mastery or fling.

Meant to Press Them

"They hoped those demands might not arouse Europe, but they meant to press them whether they did or not, for they thought themselves ready for the final issue of arms.

"Their plan was to throw a broad belt of German military power and political control across the very center of Europe and beyond the Mediterraneon into the heart of Asia, and Austria-Hungary, indeed, was to become a part of the central German empire, absorbed by the same forces and influences that had its heart at Berlin. It could have had a heart nowhere else."

It rejected the idea of solidarity of race entirely. The choice of peoples played no part in it at all. It contemplated binding together social and political units which could be kept together only by force—Czechs, Magyars, Orvate, Serbs, Roumanians, Turks, Armenians. The proud states of Bohemia and Hungary, the stout little commonwealth of the Balkans, the indomitable Turks.

"It is not easy to understand the eagerness for peace that has been manifested from Berlin ever since the snare was set and sprung? Peace, peace, peace has been the talk of her foreign office for now a year or more, not peace upon her own initiative, but upon the initiative of the nations over which she now deems herself to hold the advantage.

Intrigue for Peace

"Do you not now understand that the new intrigue, the intrigue for peace, and why the masters of Germany do not hesitate to use any agency that promises to effect their purpose, the deceit of the nations? Their present particular aim is to deceive all those who throughout the world stand for the rights of peoples and the self-government of nations, for they see what immense strength the forces of justice and of liberalism are gathering out of this war. They are employing liberals in their enterprise. They are using men, in Germany and without, as their spokesmen, who they have hitherto despised and oppressed, using them for their own destruction—socialists, the leaders of labor, the thinkers they have hitherto sought to silence. Let them once succeed and the men, now their tools, will be ground to powder beneath the weight of the great military empire they will have set up. The revolutionists in Russia will be cut off from all succor or co-operation in Western Europe and a counter revolution fostered and supported. Germany herself will lose her chance of freedom, and all Europe will arm for the next, the final struggle.

"The sinister intrigue is being no less actively conducted in this country than in Russia and in every country in Europe in which the agents and dupes of the imperial German government can get access. That government has many spokesmen here, in places high and low. They have learned discretion. They keep within the law. If is opinion they utter now, not sedition. They proclaim the liberal purposes of their masters, declare this a foreign war which can touch America with no danger to either her lands or her institutions, set England at the center of the stage and talk of her ambition to assert economic dominion throughout the world, appeal to our ancient tradition of isolation in the politics of the nations, and seek to undermine the government with false professions of loyalty to its principles.

"But they will make no headway. The false betray themselves also in every accent. It is only friends and partisans of the German government whom we have already identified who utter these thinly disguised disloyalties. The facts are patent to all the world and nowhere are they more plainly seen than in the United States, where we are accustomed to deal with facts and not with sophistries, and the great fact that stands out above all the rest is that this is a people's war, a war for freedom and justice and self-government amongst all the nations of the world, a war to make the world safe for the peoples who live upon it and have made it their own, the German people themselves included, and that with us rests the choice to break through all these hypocrisies and patent cheats and masks of brute force and help set the world free, or else stand aside and let it be dominated a long age through by sheer weight of arms and the arbitrary choices of self-constituted masters, by the nation which can maintain the biggest armies and the more irresistable armaments—a power to which the world has afforded no parallel and in the face of which political freedom must wither and perish.

But One Choice

"For us there is but one choice. We have made it. Woe be to the man or group of men that seeks to stand in our way in this day of high resolution, when every principle we hold dearest is to be vindicated and made secure for the salvation of the nations. We are ready to plead at the bar of history, and our flag shall bear a new lustre. Once more we shall make good with our lives and fortunes the great faith to which we were born, and a new glory shall shine in the face of our people."

Influence of Moonlight.

Doctor Sadger of Vienna cites cases of somnambulists who "under the influence of moonlight are called to times and scenes of active childish wishes. The moon calls them in deep sleep to act out dream wishes." The Medical Journal suggests that the key to sleepwalking and other kindred disorders of childhood and late life may be found in moon-lore.

DOCTOR'S ARE A NECESSITY

THE human body—your body—is the most perfectly constructed and best regulated machine in existence. It's oiling system is automatic; its gears are supposed to run always in mesh. It's five senses (or functions,) viz: sight; hearing; touch; taste and smell were incorporated in the body with the idea that they were "fool-proof". Nevertheless, our bodies—your body—needs repairing occasionally. Every once in a while it becomes necessary for you to consult a physician. He is the man who has the repairs necessary and the knowledge of how to use them. Some bodies need more repairing than others. That depends upon the care given the machine itself. If there was never any repairing to be done—any old body would do—and no doctors would be necessary.

SO IT IS WITH MACHINERY

THE same is true with machinery—especially farm machinery. Take for instance the Primrose Cream Separator, it's oiling system is automatic; its gears are supposed to run always in mesh. It's five senses (or functions); close-skimming; easy running; easily-cleaned, simplicity and durability were incorporated with the idea that they would be "fool proof". Nevertheless, the Primrose will need repairing occasionally. If there was never any repairing to do just any old separator would do—but such is not the case, and unless you have repair service that is quick and sure--your cream separator will stand idle and your milk will sour.

The International Harvester Company—the manufacturers and distributors of the Primrose-have a branch house in Bismarck where any part or repair can be obtained at a moments notice. This service means dollars to the user of the Primrose.

5,000,000 CORNS LIFTED RIGHT OFF!

Try 2 Drops of Magic "Gets-It."

There's a wonderful difference between getting rid of a corn now and the way they used to try to get rid of it only four or five years ago. "Gets-It" has revolutionized corn history. It's the only corn remedy today that acts on the new principle, not only of shriveling up the corn, but of loosening the corn off—so loose that you can lift it right off with your fingers. Put 2 drops of "Gets-It" on that corn or callus tonight. That's all. The corn is doomed sure as sunrise. No pain, or trouble, or soreness. You do away once and for all with toe-bundling bandages, toe-eating salves and irresponsible what-nots. Try it—get surprised and lose a corn.

"See? Just 2 Drops of 'Gets-It' Now Tomorrow I'll Just Peel That Corn Right Off—and It's Gone!"

"Gets-It" is sold everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Bismarck and recommended as the world's best corn remedy by Finney's Drug Store.

Safeguard your casings with New FISK TUBES

THIS is the time to see that your tube equipment is right and ready to meet the conditions of summer driving. You can't afford to chance ruining perfectly good casings with worn out tubes. **Replace the old tubes now—before Fisk Week goes by.**

How long has it been since you examined your tubes? Look them over carefully and replace any which you are not sure will stand the strain.

New Fisk Tubes NOW will give you better tire satisfaction and lower upkeep costs for the balance of the season. This is the time to buy.

ARE YOU BEING SLOWLY POISONED?

The most eminent physicians recognize that uric acid stored up in the system is the cause of gout and rheumatism, that this uric acid poison is deposited in the joints, muscles, or nerve-sheath. By experimenting and analysis at the Surgical Institute in Buffalo, N. Y., Dr Pierce discovered a combination of native remedies that he called Anuric, which drives out the uric acid from the system, and in this way the pain, swelling and inflammation subside. If you are a sufferer from rheumatism, backache, pains here or there, you can obtain Anuric (double strength) at any drug store and get relief from the pains and ills brought about by uric acid.

Swollen hands, ankles, feet are due to a dropsical condition, often caused by disordered kidneys. Naturally when the kidneys are deranged the blood is filled with poisonous uric acid, which settles in the tissues of the feet, ankles, wrists or back as uratic salts; or under the eyes in baglike formations.

It is just as necessary to keep the kidneys acting properly as to keep the bowels cative to rid the body of poisons.

The very best possible way to take care of yourself is to take a glass of hot water before meals and an Anuric tablet. In this way it is readily dissolved with the food, picked up by the blood and finally reaches the kidneys, where it has a cleansing and tonic effect.

Step into the drug store and ask for a 50-cent package of Anuric, or send Dr. Pierce 10c, for trial pckg. Anuric—many times more potent than lithia, eliminates uric acid as hot water melts sugar. A short trial will convince you.

THEY'RE WHITE

The fountains which Bismarck commercial travelers presented to the city last year now show forth in a clean coat of white. It has been suggested that the insignia and number of Bismarck Council, U. C. T., be inscribed on the life-savers as a compliment to the boys who made these utilities possible.

McLEAN COURT HOUSE

Andrew Person, Bismarck contractor, reports good progress with the $30,000 addition which he is building on the McLean county court house at Washburn.

MAZOLA

Improves the quality of food and lessens the cost of cooking

Enthusiastic women are telling their friends about cooking with Mazola—the wonderful new oil made from golden corn.

Here is a new oil with an exquisite flavor for Salad Dressings—yet economical enough for every-day use in cooking.

As a shortening for pastry, Mazola gives a crust that is wholesome and readily digestible.

For frying and sauteing, Mazola gives better results than any of the "patent" frying mediums. It does not leave fried food greasy.

Best of all—every drop can be used and used over again until nothing is left. Mazola is more economical than butter, lard or other cooking mediums.

Mazola costs 15c per bottle at your grocer's. For greater economy buy in the larger sized tins. Your money back if you don't agree with everything the best cooks in town say about Mazola.

Ask your grocer or write us direct for the Mazola Book of Recipes—*free on request.*

DR. LADD NAMED CHIEF INSPECTOR UNDER NEW LAW

Another Thousand Dollars Tacked Onto Annual Stipend of State Chemist

FEDERAL STANDARDS FOR NORTH DAKOTA CEREALS

No Effort to Be Made att Present to Establish Independent Grade for Farmers

Plans for placing in effect the first state grain and grading act of a comprehensive nature enacted in the United States were discussed at a meeting of the North Dakota railway commission Wednesday afternoon. The state proposes to inspect, grade and weigh at the primary markets the wheat and other products of its farms, and then, if necessary, to back up these grades by placing the power of the commonwealth behind the farmer in his fight for national recognition of North Dakota standards.

At the head of this system, which goes into effect July 1 and which will affect 2,197 elevators in North Dakota and terminal elevators in Minnesota, Wisconsin, New York, Missouri and other states, will be Dr. E. F. Ladd of Feed D wheat fame, president of the North Dakota Agricultural college, state chemist, state oil inspector, etc.

Dr. Ladd's appointment was made Wednesday as one of the first official acts of the conference called for the discussion of North Dakota's grain grading act, passed by the Fifteenth Legislative assembly. Dr. Ladd will at the start have aforce of 2,197 local deputies and probably a score of state deputies This number will be largely increased as various grain buying centers of the state avail themselves of the opportunity offered by the act to procure a public deputy inspector and weigher.

To Use Federal Grades.

"The federal standards and grades will be adopted for wheat and corn," Dr. Ladd advised at the close of the meeting. "Grades for other products have not been determined, but full rules will be promulgated following the July meeting of the commission, in Fargo. It is not believed that many state deputies will be named this year, but all elevator men who apply and comply with the requirements of the law will be given licenses In the state there are 2,197 elevators, which probably will mean issuing that number of licenses"

The placing of an exhibit of North Dakota products at St Louis in charge of a deputy inspector was favorably discussed St. Louis handled a large amount of North Dakota wheat, potatoes and flax, and the commission feels it offers possibilities as a future primary market. Buffalo is another point considered.

ROGERS HAWAIIANS AT GRAND THEATER TONIGHT

Mark Twain, after his first visit to the Hawaiian island, said in an interview: "The music of the Hawaiians, the most fascinating in the world, is still in my ears and haunts me sleeping and walking." Just as this music fascinated the beloved American humorist and author, so has it captivated thousands of people from both hemispheres who annually stop at the islands. The following artists will appear with the company playing their favorite musical instruments: S. A. Bohaker, world's famous ukelele and lyric tenor; D. L. Kalei, one of the best guitar players from Honolulu; Ed Malie, famous steel guitar artist; H. Mookini, guitar player, and baritone singer; H. Pilimanu, ukelele performer of merit. Hear them in their supreme, melodious melange of Hawaiian music and popular airs at the Grand theater tonight only. Two performances will be given tonight, commencing at 7:30 and 9:15. Prices of admission are. Children, 10 cents, and adults, 25 cents.

ONE PROVINCE SETS UP REPUBLIC

London, June 14.—According to a Petrograd dispatch to the Mail, there seems to be a reign of terror in Tsaritsyn, where a separate republic has been declared, and the town is entirely in the hands of the extremists. The dispatch says the situation is serious

Do not fail to hear Rogers' Hawaiians at the Grand tonight, the one big musical novelty of the season.

CASSELTON WINS FIREMEN'S PRIZE AT VALLEY CITY

Held Best Appearing Department Reade Re-elected for 26th Time as Secretary

Valley City, N. D., June 14.—The Casselton fire department took first money, $70, as the best appearing company in the annual parade of the North Dakota Volunteer Firemen's association. Other prizes, in their order, went to Devils Lake, $56; Cooperstown, $43, and Enderlin, $31. Valley City had an excellent representation in line, but was not permitted to compete for a prize Following the parade an indoor picnic was held in the armory The annual election of officers resulted in the choice of the following: President, Chief F. I. Craswell, Valley City; first vice president, L. O. Ramstad, Hettinger; second vice president, R. S. Norton, Velva, treasurer, Capt. M. H. Sprague, Grafton; secretary, H. L. Reade, Bismarck; statistical secretary, L. R Taylor, Jr., Mandan; trustees, R. S. Campbell, Lisbon; John Phinnister, Glen Ullin; R. E. Giese, Jamestown. Mr. Reade, who has served the association as secretary from the date of its organization, was re-elected for the twenty-sixth consecutive time The annual ball will be held this evening instead of Friday evening, as originally scheduled.

The convention adjourned this afternoon after the next place of meeting had been referred to the board of trustees.

TOWNLEY READY TO SELL LEAGUE

(Continued from Page One)

A hold-out, if these conditions are not met.

The "I. W. W. Triumph."

"The Industrial Worker," official organ of the I. W. W., tells of the organization's triumph through the kindly intervention of President Townley and Attorney LeSeuer as follows:

"Farmers' organization sends attorney as tribute to I. W. W. power; increased demands."

"Arthur LeSeuer, attorney for the Nonpartisan league, composed of North and South Dakota farmers, for his clients, asked for a conference with representatives of the I. W. W. Forest Edwards, Ted Fraser, J. J. McDonnell, Eddie Post and Arthur Boose were appointed on a committee for that purpose

"A minimum wage of $4 a day was decided upon for all harvest work, and $60 a month for all general farm work. The matters of living and working conditions were gone into exhaustively and abuses which had their inception in the unorganized conditions of the workers are to be eliminated," continues the publication.

That the Agricultural Workers organization has in mind some right interesting developments for the farmers of the Northwest is indicated in the Industrial Workers' report of the Kansas City convention proceedings.

The convention of Agricultural Workers' organization * * * has sketched out the broad lines of the activities of this industrial union, which will dominate the agricultural industry within a short time, according to all present indications. The details will be effectively filled in by the harvest hands.

This year, when they say, "Come on, four hundred," a number of things new in the agricultural industry will occur.

The League Committee.

Action looking to the placating of the Industrial Workers of the World was taken at the Nonpartisan league convention in Fargo on Friday, June 1

The Nonpartisan league committee, appointed to confer with the Agricultural Workers' organization committee, comprises John N. Hagan, commissioner of agriculture for the state of North Dakota; Frank B. Wood of Deering, member of the league's executive committee, and N. E. Whipple, Eckelson, member of the state legislature

BURLEIGH WILL TAKE MORE THAN $100,000

(Continued from page one)

terest begins tomorrow at 3½ per cent.

Cass county undoubtedly will lead the state Its subscriptions yesterday totaled $402,000. Grand Forks ranks second Every county, from the largest to the smallest, is doing its bit.

Campaign in State.

"Everything is going fine" said former governor L. B Hanna, chairman of the state Liberty Loan committee, at Fargo today

"Our mail is very heavy, subscriptions coming in from all sections of the state, and the indications are that North Dakota will maintain her share in the financing of the war

"I was gratified to receive bond purchase orders for $51,000 from Steele county, one of the small counties of the state My reports indicate that hard work is being carried on in many sections of the state in advancing the sale of the bonds"

Forks Has Record.

Grand Forks to date has the state record for individual bond buyers with a total of 1,100 Fargo ranks next with 775 In these two cities and others in the state the names of all bond buyers have been published The Tribune hopes to procure a list of Bismarck and Burleigh county buyers for publication at an early date

Jamestown reports that its allotment has been over-subscribed $10,000 Stutsman county at large has absorbed $160,000, $25,000 more than the estimated quota The population of Stutsman is approximately twice that of Burleigh

Minot to date has subscribed $55,000, $20,000 less than Bismarck's present total. The Magic City is working hard to increase its quota to $60,000.

STEWART GIVEN PLACE ON RAILWAY COMMITTEE OF COMMERCIAL BODY

Bismarck Man Appointed by John L. George, Grand Councillor U. C. T.

Dan S. Stewart, one of Bismarck's pioneer traveling salesmen, was honored today by an appointment from Grand Councillor John L. George of the United Commercial Travelers to a membership on the grand council's railway committee Other members are W. L. Grasse, Fargo, H. C. Casper and G. W. Hancock, St. Paul, and R. E. Braden, Minneapolis.

This committee is meeting today with the Minnesota railway and warehouse commission to consider rules and regulations covering the exchange of reciprocal mileage Mr. Stewart was unable to attend today, but leaves tonight for Minneapolis to meet the committee and pay a visit to his house.

DEVILS LAKE WOMAN HEADS STATE W. R. C. FOR ENSUING YEAR

Casselton, N. D., June 14.—Officers of the North Dakota W. R. C. elected in convention here today are: President, Mrs. Marie Pattee, Devils Lake, senior vice president, Mrs Nellie Schooley, Fargo; junior vice president, Mrs. Nettie Edgerly, Ellendale; chaplain, Mrs. Lillian Hartwell, Wahpeton; treasurer, Mrs. Emma West, Devils Lake; secretary, Mrs Nettie Balfour, Devils Lake.

STORY TOLD IN AN EPITAPH

Farmer Gives In One Sentence His Opinion as to What Caused Fatal Automobile Accident.

An automobile accident resulted in the death of the driver and the injury of two passengers.

The coroner summoned several witnesses, among them a farmer living near the scene of the accident. There was voluminous testimony regarding the high speed at which the car traveled. Witnesses said, too, that the road was in bad repair. The coroner finally reached the farmer, who lived near the scene.

"What would you say about this accident, Mr. Swiggert?" the coroner asked.

"Well, if I was writin' that young man's epitaph," the witness drawled 'I'd say he died tryin' to get 60 miles out of a ten-mile road."

Debt and Progress.

I have just read in this morning's paper the sad account of an attempt at suicide, says a writer in Farm and Fireside. The doctor says the man may live, and I hope so, for he is an acquaintance of mine and he has a wife and four children who need him Poor fellow, he is just in his prime—only forty-two—when a man can do so much with his life.

The reason for the act was financial trouble, with poor health as a contributing cause, and that is why I want to say a few words on the subject of debt, which so often brings worry and finally ill health and despondency. The ordinary debt contracted for a useful or needful purpose is looked upon in the business world as an important in

Secret of Beautiful World.

Someone was wondering why a certain small town was so much more attractive than most of its kind. "There are no fine buildings," she said, "no beautiful scenery no parks." "No," said another, who also was familiar with the town, "but everybody has a little garden, and takes such good care of it." That is the secret of making this world beautiful for each of us to take good care of our own little garden plot.—Girls' Companion.

Costly Caloric.

"Doesn't it strike you that the temperature in this room is rather high?

"There's no doubt about it, with coal at the present price."

Had Considered the Matter.

"Now, my girl don't rush hastily into marriage. Marriage is a serious matter." "I get you, grandma. It's no joke to go after a divorce and have to spend six months getting a residence in some faraway town."—Louisville Courier-Journal.

Social Arbiters.

Mrs. Dasher—"No dear; you mustn't invite the Fannins and the Jeromes for the same evening The two families don't speak. Dasher—"Fell out over the children I presume. Mrs Dasher—"No; their cooks quarreled —Life.

Them There Wimmin.

Who is it that woman will pick up a rabbit skin with her middle finger and thumb and hold it gingerly at arm's length from herself when she is wearing around her neck a fur with a skunk's head on one end and its tail on the other?—Milwaukee Sentinel.

BISMARCK TO TAKE ON FARGO ATHLETIC CLUB FOR TWO GAMES HERE

Good Exhibitions Scheduled for Saturday Evening and Sunday Afternoon

Undaunted by its defeat at Stanton last Sunday, the Bismarck team has taken on the Fargo Athletic club for two games on the local diamond, at 6:15 Saturday evening and 3:30 Sunday afternoon. The Stanton game was the first decisive test of strength for the season. The Bismarck boys went into the contest two men short, and they finished only one run behind Stanton, which has an exceptionally strong line-up.

Roth Going Some

Errors in the outer garden cost Bismarck the Stanton game Christenson twirled remarkable ball, allowing but six hits. "Speed" Roth, Bismarck's youthful second-sacker, was the bright, shining star of the game. Besides handling perfectly every chance in the field, he connected with the ball for four hits, two triples, a double and a single, in four times up. Bismarck cornered 13 hits to Stanton's six, and it was only exceptionally good fielding that held the Capital City bunch down.

Big crowds are promised for both games with Fargo. The Bismarck aggregation is clean, fast and popular, and there is no doubt that they will be given the support which is their due.

FLASHLIGHTS

The trouble is that some men look on their wives as they do their automobiles; they're always expecting some day to have one of the newer models.

If you aren't going to be proud of her when her hair is tied up in a dish towel, and her morning dress looks as though a street-sprinkling car had had a fair shot at it, she's not the right girl, young fellow.

The reason some men aren't around the house more is because the moving picture theater is too handy.

It's a poor sort of father who wants his children to be satisfied with less than the best he can do for them.

FEDERAL TIRES

Rugged Tread — Double Cable Base — Traffik Tread

Buying Federal Tires is an investment—"Extra Service" is the dividend.

"Extra Service" means greater mileage—More than than that it means greater freedom from rim cuts, blowouts and other common tire troubles.

Much of this "Extra Service is directly due to Federal Double-Cable-Base Construction—the big strength and safety feature that alone makes Federals a dividend paying investment.

IT'S A FACT—ABOUT FICTION.

Most people read fiction nowadays—and most people who talk about fiction at all have the idea there is being poured out upon us each year a flood of fiction.

But, to the surprise of most, if there ever was a "flood of fiction" it is at ebb tide—and ebbing strong.

In 1895 20.3 per cent of books published was fiction. Last year's figures show only 8.91 per cent fiction.

This gives rise to interesting questions. Are we becoming more "intellectual"? Are we getting to be more "solid" and matter of fact? Don't the thrillers "get" us as they used to?

Anyway, a growing percentage of books deal with sober, serious fact, and the good old heart throb plot that thickens is on the wane.

It is interesting to note that the decline has been gradual since 1895—and so it can't be laid to the war, as most everything else is.

SCHOOL'S OUT!

Vacation time really depends on the children. When they are out of school, with books closed, parents ask, "What shall we do for the children this summer?" Soon the rest of the community is affected with the contagion and vacation time is really under way.

Travel is always popular. Resorts at lake and mountains, forest and seashore promise rest and amusement. Camping canoe trips, hunting and fishing lure those who enjoy the strenuous life.

Whatever you enjoy don't let false ideas of economy, as a war time measure of patriotism, deter you from getting some sort of a vacation. If you have been accustomed to a long railroad trip and feel that a Liberty bond would be a better and more patriotic investment, that is for you to decide. But don't allow the change in plans to prevent your taking that two weeks off from your office or work bench. If you feel that the country needs your effort in the two weeks go out in the country and help with the harvest.

The big industrial corporations don't release their office forces on pay from purely altruistic motives. It's a part of the efficiency movement. There's good money in it for them. "All work and no play makes Jack a dull boy" is a true maxim that has lost nothing with age. Physical rest is usually unimportant to the vacationer. Men will go out in the woods and perform feats that would "simply kill" them in the city, and come back all the better for it. It's the change of occupation, the release of the mind from its accustomed channels, the meeting with new people and the new angle on life, that makes vacations pay.

You will find that there is more accomplishment in a 52-week year than in a 365-day grind.

THE CORPORATION OF KANSAS.

"Business as Usual" is no longer a good enough slogan for public business in Kansas. "Better Business" is the new motto.

July 1 Kansas will refuse to longer regard the administrative department of the state as an eleemosynary institution for the distribution of political plums. The state plans to go on a business basis.

Progressive Kansas is organizing along the lines of the most successful corporate management. The governor will act as president of the corporation of Kansas. He will appoint three directors, and they will choose a business manager and have power to discharge him if he does not conduct the state business satisfactorily and efficiently.

This extends the commissioner-manager plan of city government to a larger area. The rest of the country is going to keep an eye on the experiment. There are cities having an annual budget larger than that of Kansas where the scheme is working. Gov. Capper has senatorial ambitions and his influence will be behind the plan. The first board is made up of a successful college president, a former governor, and the president of the state league of municipalities. It will have a fair trial. It ought to result in added efficiency of administration and important savings in salaries and expenses.

Managership of a state is a man-sized job. It is unfortunate that the legislature restricted the choice to Kansas and limited the salary to $5,000 a year. It is the sort of constructive work that attracts big men; but probably Kansas can supply one of proper calibre. A really ambitious man has an opportunity to make a name for himself.

Good luck to the corporation of Kansas.

NOT MERELY FLAG DAY.

Today is Flag Day.

Today you ought to fly your country's colors.

But that is not all you ought to do.

To some persons today will be merely Flag Day—they will merely put out the flag in the morning and take it in at night, if they don't forget about it.

Do not be that kind of a merely citizen.

No real American will be.

Today real Americans, as they run Old Glory to the masthead, will swell in pride that it is their flag, that it flies over their country, that it honors their cause.

They will feel through their whole beings a thrill of pride in being part of the nation over which that great emblem of liberty waves.

They will feel pride in knowing that this great nation is rising so nobly to its supreme test.

They will honor the flag today in spirit as well as in outward act.

The time has gone for merely Americans. Real Americans are the only ones that count today and every other day now.

None but real Americans in America this Flag Day!

UNDERSTANDING GERMANS.

Do Americans understand Germans?

The Germans say we do not.

The Germans are correct.

Few Americans even yet have the slightest conception of the ideas which govern Germany. Many Americans have only lately come to believe the facts of German policies. They could not trust any evidence, so absolutely impossible did such things as the Germans have done seem to be in this twentieth century.

But everything Germany has done has been done calmly, coolly and with malice aforethought. Germany is not a mad dog foaming at the mouth. The nation is mad, but it is the cool lunacy of a poisoned brain, not the red fury of rabies.

To find out what is the matter with Germany it is necessary to go to the source of German ideas—to the thinkers who have fashioned her ideals for the past two generations.

Following are some quotations which tell the tale. They are the words of the men who have been most widely read and most widely believed by the Germans of today.

These thinkers have put into unqualified statement the principles upon which the Prussian power was founded and has grown great. Like all philosophers, they have simply reflected in their books the world about them. In turn their statements of the national ideals have had the effect of strengthening and crystallizing them.

The German gets his ideas from books and from philosophers, more than any other modern man. The German professor wields an influence of which we know nothing in this country of unmuzzled newspapers, free politics and unlimited discussion on the stump.

Here is the German creed, as formulated by Germany's own philosophers:

"Not only must the state be obeyed, it must be venerated as a God. Success insured by might is the measure of right."—Hegel.

"Weak nations have no right to existence, and must be absorbed by powerful nations. The essence of the state is power. Nothing exists or can exist which is superior to the state."—Treitschke.

"The state can do no wrong. The observance of treaties is not a matter of duty, but of advantage."—Adolphus Lassen.

"Love God above all things and thy neighbor as thyself. This law can claim no significance for the relations of one country to another. There never has been and never will be universal rights of men."—Bernhardi.

"Morality is a symptom of decadence. War is as necessary to the state as slavery is to society. Might is the source of right. There is no right other than that of theft, usurpation and violence."—Nietzsche.

And finally the renegade Englishman, Houston Chamberlain, who hates his own country, and from his Berlin home has for years savagely attacked Englishmen as decadent, because they would not accept the German theories, says: "Militarism is the indispensable instrument of German culture. It builds its brightest hopes of supremacy on the extermination of others."

There are Americans who believe in such theories and try to practice them. For them we maintain many penitentiaries and electric chairs. We do not honor them with decorations nor place them in the chairs of our universities. No American has ever successfully published a book upholding such doctrines.

In Germany such books can be bought at any railways news stand.

Is it any wonder the Germans say we can't understand them?

ORGANIZATION CERTIFICATE OF THE CAPITAL SECURITY BANK.

Know all men by these presents, that we, whose names are hereunto subscribed, have this day united ourselves together to form an association for carrying on the business of banking under the laws of the state of North Dakota, and have adopted and executed articles of association, in duplicate for that purpose, and have duly forwarded such articles to the secretary of state of North Dakota; that we do hereby under our hand make and file the following as our certificate of organization:

FIRST.

The name of said corporation is: Capital Security Bank.

SECOND.

The place where the business of discount and deposit are to be carried on is: Bismarck, North Dakota.

THIRD.

The amount of the capital stock and the amount into which its shares are to be divided is: Fifty thousand ($50,000.00) dollars, divided into five hundred (500) shares.

FOURTH.

The names and residence of the shareholders and the number of shares held by each of them are as follows:

Name.	Residence.	Number of shares.
Krist Kjelstrup,	Underwood, N. D.	100
C W McGray,	Underwood, N. D.	100
Nels E Rullen,	Hoffman, Minn	100
H. J Gronberg,	Hoffman, Minn	40
William Schellbach,	Hoffman, Minn.	20
N. P McGregor,	Minneapolis, Minn	20
J A Hyland,	Bismarck, N D	40
C P. Kjelstrup,	Parshall, N D	40
A. O. Fuglie,	Parshall, N D	40

FIFTH

The period at which this corporation shall commence business shall be at the issuance of its charter, and it shall terminate 25 years from date of its charter.

In witness whereof, we have hereunto set our hands and seals, each for himself, this 16th day of February, A D 1917.

C W McGRAY, (Seal)
J A. HYLAND, (Seal)
C P KJELSTRUP, (Seal)

UNITED STATES OF AMERICA, DEPARTMENT OF STATE, STATE OF NORTH DAKOTA.

TO ALL TO WHOM THESE PRESENTS SHALL COME:

Whereas, C W McGray, J A Hyland and C P Kjelstrup have filed in this office a copy of their articles of Association and an Organization Certificate, as provided in (Sections 5147 and 5148, Chapter 28, Compiled Laws 1913), said chapter being the law governing the organization and management of (State Banks), setting forth all the facts required to be stated in said sections, and have in all respects complied with the requirements of the law governing the organization of (State Banks) as contained in the Chapter hereinbefore referred to;

Now, therefore, I, Thomas Hall, Secretary of State of the State of North Dakota, by virtue and authority of law, do hereby certify that said parties, their associates and successors, have become a body politic and corporate, under the corporate name of "CAPITAL SECURITY BANK" (Bismarck, Burleigh County, North Dakota), and by that name are hereby authorized to commence the business of banking; to adopt and use a corporate seal; to sue and be sued; purchase, hold and convey real and personal property, as provided by said chapter; to have succession for a period of twenty-five years; to make contracts and to have and enjoy all the rights and privileges granted to State Banks under the laws of this State, subject to their Articles of Incorporation, and all legal restrictions and liabilities in relation thereto.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the Great Seal of the State, at the Capitol in the City of Bismarck, this twenty-first day of February, A. D. 1917.

THOMAS HALL,
Secretary of State.
(6—12, 19, 26; 7—3)

The Ideal Army.

Some men think fast, and then act; others act and think afterward, if at all. One type is deliberative, the other impulsive. The army of cool-headed officers and hot-headed soldiers makes a magnificent military machine.—American Magazine.

SUMMONS.

State of North Dakota, county of Burleigh. In district court, Sixth judicial district.

B. F. Tillotson, as administrator, with the will annexed of the estate of Nina Downey, deceased, Plaintiff

vs.

Alexander McKenzie and all other persons unknown claiming any estate or interest in, or lien or incumbrance upon the property described in the complaint, Defendants.

The State of North Dakota to the Above Named Defendants:

You are hereby summoned to answer the complaint in this action, which is filed in the office of the clerk of this court, at the court house, in the city of Bismarck, Burleigh county, North Dakota, and to serve a copy of your answer upon the subscribers within thirty days after the service of this summons upon you, exclusive of the day of service; and in case of your failure to appear or answer judgment will be taken against you by default for the relief demanded in the complaint.

Dated June 13, 1917.

MILLER, ZUGER & TILLOTSON,
Attorneys for Plaintiff
Office and post office address: Bismarck, North Dakota.

Notice to Said Defendants.

Please take notice that the above action relates to, and the object thereof is to quiet title in the estate of Nina Downey, deceased, to the following described real property, to-wit: Lot six (6) and the north ten feet of lot seven (7), in block eighty-nine (89), McKenzie & Coffin's addition to the city of Bismarck, Burleigh county, North Dakota; and that no personal claim is made against you or any of you in said action.

MILLER, ZUGER & TILLOTSON,

RAILWAYS OF THE UNITED STATES IN SINGLE SYSTEM FOR THE WAR

Under Government Direction and With European Lessons In View, They Are Preparing to Handle Armies and Supplies — Mistakes of the Spanish-American War Will Not Be Repeated—Efficiency the Watchword.

Washington.—Transportation is an essential of the national service in war time. Railways move the troops, feed the troops, equip the troops; railways feed the navy, equip and coal the navy, and build the ships. No plant can perform its government task without prompt movement of material, parts, supplies and fuel. Railways are the very arteries of war. Magnificent armies of highly disciplined men equipped with the most ingenious instruments of destruction would be rendered inefficient by a lack of railroads. Never, perhaps, was the importance of the railroad so exemplified as in the European war. When the first shadow of a war cloud was cast over the peace-loving United States, instant consideration of the railroads as a means of defense came from the government, and railroad officials patriotically took the initiative in placing at the disposal of the nation every mile of track and every wheel. When the history of the war is written, one of the most dramatic chapters may have to do with the part the railroads played.

If the American railways were called upon to move large bodies of troops and gave the same accommodation as supplied in Europe, said George Bury, vice president of the Canadian Pacific railway, the other day, they would be in a position to move a vastly greater number in a shorter time. In warring Europe troops are moved in freight cars when passenger equipment is not available. In Europe the passenger service has been curtailed, the remaining trains slowed up, and the running of fast freights discontinued.

Efficient Plan Worked Out.

The country has been assured by the highest railroad authorities that the failures of our transportation system in the Spanish war will not be repeated, but that, on the contrary, as a result of a system which the war department has worked out with the railroads, confusion such as was incident to 1898 will be avoided. The conduct of that campaign was little better than the fiasco of the French empire at the opening of the Franco-Prussian war. To get rid of the confusion which attended the attempted mobilization at Tampa, when was disclosed an unparalleled lack of executive ability, the war department took up the question with the railroads and worked out a plan which has been accepted by all lines in the country.

During the Spanish war, for example, supplies for 70,000 men had been ordered to Tampa. In the effort of the railroads to put these supplies into that port 1,000 freight cars were sidetracked and the whole lines congested up as far as Columbia, S. C. In accordance with the understanding that today exists between the war department and all the railroads, a placard will be placed on every freight car, marked "United States Army" in large letters at the head, stating the department to which the supplies are consigned, the car initial, the car number, point of shipment, contents, consignee, destination, route, date shipped, and consignor. When they arrive at the front they will at once be put into position, unloaded, and released without waiting for bills of lading or other railroad papers. The placards placed on the cars will be considered sufficient for all purposes.

Must Never Be Sidetracked.

It will be a rule of the railroad officials conducting the mobilization that a car thus marked shall never be sidetracked or laid over in a yard. If it is damaged in any manner, repairs on it will have precedence over other work. If these repairs cannot be immediately made, or are serious in character, the car will be at once unloaded and another car substituted and sent on through, with the same placard. One of the chief troubles at Tampa was that the freight was not labeled. Nobody knew what the cars contained or where any specific supplies were along the line.

For months before diplomatic relations were broken with Germany the committee on transportation and communication of the advisory commission of the Council for National Defense, headed by Daniel Willard, President of the Baltimore & Ohio railroad, had been in close communication with the officials of the war department. When the danger became an actual menace the work of promptly organizing the railroads for defense fell upon the executive committee of the American Railway association.

Col. John L. Taylor of the bureau of explosives of the American Railway association said last week that in the whole world there was no such broad and highly developed system as that possessed by Uncle Sam. It was created, however, for the pursuits of peace; it made no claims to efficiency on special military lines comparable with the transportation of Germany, for instance.

System in Germany.

By the end of 1907 the normal tracks in Germany constituted more than one-sixth of the whole of Europe—a system larger than that of any other European country with one exception, Russia. The kaiser has been ex officio the chief of the Imperial railway office. He has appointed its members. He has had the power to demand and to prescribe lower than the normal rates for the transportation of provisions in case of emergency. He, in connection with the upper house of parliament, may call for the conveyance of soldiers and the materials of war.

Not long after the war began Germany called to the colors every available man. This gave a total of 4,000,000 men in the field to be supplied with food, clothing, ammunition, and everything needed for actual service. There were probably 800,000 horses also in the field, and they too had to be fed. The ammunition and the guns had to be carried to the front by rail, and much of it was transported back and forth several times. Germany's railroad arrangements had been complete even before the war started. A war time-table, revised as occasion demanded, has from the first been in the possession of railway officers throughout the country, capable of being put into force at the shortest notice. Short strategic lines built by Germany on the French and Belgian frontiers have been of the greatest importance, and in addition, most of the main lines are so located as to have the greatest efficiency for military purposes.

Every railroad car in Germany has stenciled on it the number of men or horses it is expected to accommodate. In Germany the world has its most complete example of the state-owned railway. Bismarck worked for imperial ownership. The foundation of such a net as we now see in operation was laid in 1871, when the lines of Alsace-Lorraine came to the empire as a result of the Franco-Prussian war. In that war Germany used her seven railway lines in the north and three in the south, only one having a double track, to transport 16 army corps, numbering 450,000 men, to the frontier, and accomplished the strategic feat in 11 days. Today Germany has 12 double-track lines grilling her broad surface, and the manner in which she has made use of them to prosecute the world war has been a striking example of the railroad as a weapon for offensive as well as defensive operation.

Cut Passenger Service.

One of the first changes necessary for American railroads to make, according to men who have given most of their thought to the situation since our trouble with Germany threatened, is the curtailing of the passenger service. Probably no other means available, says one authority, can be used more effectively to conserve the resources of the railways of the United States.

The committee issued an order a few days ago which said in effect: "In all cases keep freight cars moving and settle differences of opinion afterward." This was the first important step of the railroads in carrying out their pledge of April 11 that during the war with Germany they would co-ordinate their operations in a continental railway system in the effort to produce a maximum of national transportation efficiency.

Already the roads are operating as a unit in the interest of national defense, and the detailed recommendations of the board, worked out after exhaustive conference, from the program by which the administration expects to bring to a basis of war efficiency every portion of the 262,000 miles of railways which make up the greatest national transportation system in the world.

STEEL WORKERS NEED HOMES

Housing Problem at the Bethlehem Is Becoming More Acute Than Ever.

South Bethlehem, Pa.—With the entry of the United States into the war, the housing problem in this phenomenally growing steel center has become more acute than ever.

It is estimated that to house properly those who should reside in the Bethlehems, but who are compelled to seek residences elsewhere, 6,000 to 10,000 more buildings are needed.

Private building has been going on at the rate of 1,500 houses a year. Charles M. Schwab has just announced his company will put up 1,500 more workingmen's houses this year at a cost of $5,000,000, this being equivalent to building a town of between 5,000 and 10,000 persons. But the situation will probably be as bad at the end of the year as it ever was, unless the rate of growth suddenly drops.

To build the new Schwab houses 50 carloads of material will be delivered every day. Three thousand workmen will be employed.

Suffer for Honesty.

New York.—Twenty-six Harlem merchants are bemoaning they observed the adage "It pays to be honest." In each instance a youth made a purchase for 35 cents, leaving fifteen cents change on the counter. They chased him and a confederate looted cash registers of $10 to $40 in each case.

To Grand Forks—G. E. Richardson, for the last nine months in charge of the Bismarck public health laboratory, has resigned, to return, July 1, to the university at Grand Forks, where he will be an instructor in the [illegible] school. He will be succeeded here by Dr Rumreich of the university.

FOR SALE—A lot of 30-inch wrapping paper 9c per lb. by the roll. See samples at Fannee's, Fourth street. 6-6-6t

Interesting Engagement Announced at Luncheon

At the charmingly appointed luncheon given this afternoon by Mrs Philip J Meyer at her home in Fourth street, announcement was made of the engagement of her sister, Miss Helen D Hoskins, daughter of Mr and Mrs R D Hoskins of this city, to Glover H Dollar, son of Mrs M Dollar of Princeton, Ky

The luncheon was served at five tables, which held centerpieces of pink carnations. All the appointments were in the same color tone. At the bride's table covers were laid for 8. Hidden in the centers of the individual roses, which were distributed to the guests during the last course, were slips of paper, on which were written the names of Miss Hoskins an dher fiance This was the novel way which the hostess took to convey the interesting news

Novel features of the luncheon was the cutting of two large cakes by Mrs Hoskins, mother of the bride-elect, and Miss Hoskins, and the pink motor car containing a miniature bride and groom, which was propelled through the rooms.

Mrs. Meyer was assisted by Mrs N. O Ramstad, Mrs. F L. Conklin and Miss Julia Eudlong. The guests included only intimate friends of Miss Hoskins. They were. Mrs Birlea Ward, Mrs. A. G. Jacobson, Mrs. E. C. Wright, Mrs. Robert Dutton, Mrs. J G. Wallace, Mrs. Cecil Burton, Mrs. R. S. Towne, Mrs. W. A Leach, Mrs. E D Rose, Miss Ethel Barnes, Miss Dora Larson, Miss Clara Tatley, Miss Bessie Varney, Miss Harriet Falconer, Miss Lois Hull, Mrs E. L. Semling, Mrs Roy Logan, Mrs. R M Bergeson, Mrs. J W. Hintger, Mrs. Conklin, Mrs. J. W. Bliss, Mrs R. D. Hoskins, Mrs. Worth Lumry, Mrs. Ramstad and Miss Budlong

The bride-elect is a member of one of the oldest and best known families of the capital city. She is a graduate of the local high school and of the Stout institute, Menominie, Wis. Mr. Dollar is cashier of the International Harvester company The engagement will terminate in an early fall wedding

College Students Arriving To Spend Vacations

Boys and girls attending eastern schools are arriving in the city this week to spend the summer vacations at their respective homes Misses Dorothy Treacy and Esther Talcott arrived Wednesday on No 3, from Minneapolis, where they attended Stanley Hall. Miss Treacy last winter was elected president of her class She will be a junior next year The Misses Margaret Welch and Althea Spear are expected home this evening from the University of North Dakota. Gerald Atkinson, a student at the same university, returned to the city several days ago and will spend the summer with his uncle, T R. Atkinson

Paul Gramba, son of Mr and Mrs. F G Gramba of Fourth street, returned Wednesday from Easton, Pa., where he attended Lafayette college. Dill B Register, a student at the same institution, returned several days ago.

Miss Muriel Floren has returned from the University of Minnesota, where she was a student in the music and fine arts department. Alonzo Grace, son of Judge and Mrs. R. H. Grace, will return Saturday from the same institution. He will graduate this evening from the music and fine arts department. Virgil Grace, a brother, returned the first of the week Other students attending the U. of M. who have returned are: Paul A. Cook and Milo Miller.

Miss Anne Atkinson; a student at Dana Hall, Wellesley, Mass., is expected home next week, and Myron Atkinson and Frank Talcott, students at Williams college, Williamstown, Mass., are expected at the same time.

Miss Glenn Bruce, daughter of Judge and Mrs. A. A. Bruce, who has been attending St. Mary's school in Faribault, Minn., returned home Wednesday. Miss Anne Shepard, who is also a student at St. Mary's, will remain in Faribault for several weeks, taking special training at St Luke's hospital After completing her course, she will remain in the east with friends, returning to the capital city for a short visit with her father, F. E Shepard of Avenue B, before school resumes next fall. Richard and Eugene Leonard, students at Shattuck Military school, will spend part of their vacations with their mother, Mrs F E. Shepard Eugene is a member of this year's garduating class. Mr. and Mrs Shepard are in Faribault attending the commencement exercises of Shattuck and St. Mary's. They are expected home tomorrow. Robert L. Hanna, son of ex-Governor and Mrs L B. Hanna, also a student at Shattuck, will spend part of his vacation at the Hanna home in Fargo Miss Enid Brown, daughter of Rev and Mrs. C H Brown of Mandan, returned Wednesday from St Mary's. She was a member of this year's graduating class. Mrs. Brown, who was in the east for the commencement, is visiting friends in Wisconsin Miss Isabelle Robinson of Steele, also a student at St. Mary's, is enjoying a motor trip in Minnesota with her parents and sister and brother, who attended the commencement.

Miss Rose Strutz, daughter of Rev. and Mrs. R E. Strutz, has returned from Northwestern college, Naperville, Ill., where she has been studying music Miss Leah Keniston, daughter of Mr. and Mrs. George N. Keniston of Avenue A, returned Wednesday from Dillon, Mont., where she attended the Montana normal school. Finley Baker, who attended the University of Wisconsin last winter, will spend his vacation with his parents, Capt. and Mrs I P Baker

The Valley City normal school students from the capital city will return in two weeks. Miss Esther Semling will spend a part of the vacation with Mr and Mrs. A. P Lenhart, t Miss Florence Keniston, with her parents, Mr and Mrs G. N. Keniston; Miss Lelia Vornholt, at her home, and Miss Elsmore Gustavson, with her sister, Mrs. A. A. Jones at Fort Snelling. Miss Gertrude Hoffman is expected home Saturday from Fargo college, where she is taking a course in piano.

Oliver and Philip Webb, sons of Mr. and Mrs P. B. Webb of Fourth street, are expected to arrive in the city Saturday from Prairie du Chien, Wis., where they have been attending Campion college.

* * *

Return From Motor Trip.

Mr. and Mrs. Sam Clark of Avenue A have returned from a motor trip to South Haven, Minn They were joined in Minneapolis by Mr and Mrs Greely Carr of that city

* * *

New Yorker to Preach Here.

Dr. John W. Hancher, secretary of the board of education of the Methodist Episcopal church with headquarters in New York city, will preach in the McCabe church Sunday morning.

* * *

Birth of Son.

Announcement has been made of the birth of a son to County Auditor and Mrs T E Flaherty of Second street, Wednesday, in the St Alexius hospital Mother and son are doing nicely

* * *

Degree of Honor Meeting.

Every member of the Degree of Honor is asked to attend the meeting this evening in the Knights of Columbus hall, when work will be started on fracture pillows for the Red Cross Those attending are asked to bring thimbles and needles

* * *

Sews For Red Cross.

Members of the Wicaka Camp Fire girls met last evening with Miss Ruth Cordner in First street, and spent the greater part of the evening in sewing Red Cross articles The Camp Fire girls have decided to aid in the Red Cross work during the summer

* * *

To Leave For West.

Dr. and Mrs. G A Rawlings and daughter, Miss Ruth, of Avenue A, will leave Friday evening on an extended western trip, to include points of interest along the Pacific coast They will visit in Portland before going to California

* * *

To Hold Memorial.

A memorial service will be held Friday evening by the Daughters of Rebekah in Knights of Pythias hall for departed members A report will also be given by the delegate attending the recent assembly held in Valley City The meeting will be called at 8 o'clock and all members are asked to attend.

* * *

Red Cross Class Formed.

Mandan women have formed a class and will take a special course in elementary hygiene under the direction of Miss Irene Dillon, superintendent of the Mandan hospital. Mrs. Ira G. Nichols is president of the class. Mrs. J F Sullivan, Mrs. E. R. Lanterman, Mrs L. S Royer, Mrs. Sweet, Mrs. Arthur the Misses Cecilia and Florence Connolly, Clara, Lillian and Ida Thorberg, Genevieve Simpson, Mary McGillic, Ethelind Cary, Marian Newton Nell Dooley and Eva Heater composed the class

* * *

Personal Notes.

Mrs. B. G Ristine, wife of Captain Ristine, and small daughter, who have been staying at the McKenzie hotel, left last evening for Des Moines, Ia., to join Captain Ristine who has been stationed at Fort Des Moines. Mrs. Ristine's mother, who arrived from the east the first of the week, accompanied them

Miss Wallie Dirlam of First street left today for Plentywood, Mont., to visit Miss Margaret Weatherhead She was joined by her aunt, Mrs. Leben, in Velva, who will also visit in Plentywood.

Mrs C. A. Rust and daughter, Miss Edna, of Underwood are spending several days in the city and while here are guests at the Grand Pacific.

Stanley Casey and Alvin Jorganson, students of the University of Minnesota, are spending the summer in the city Mr. Jorganson is a brother of Carl Jorganson

Mrs. F L. Brandt of Thayer street has been called to Grand Island, Neb., by the death of her mother, Mrs C N Bade

Miss Catherine Goddard of Second street will leave Saturday for Chicago, where she will spend the summer with her aunt, Mrs W. E Brewster.

Miss Sue Digby of Second street is visiting her sister in Sanger. She will also visit friends in Mandan before returning home

W C Phelps of East Orange, N J, is spending the summer with Dill Register of Fifth street. Mr Phelps and Mr. Register are classmates at Lafayette college Easton, Pa.

Mrs. R O Edick of Deadwood, S. D., is a guest of her sister, Mrs. W. F. Harris of First street.

Each an artist, each a soloist—Rogers' Hawaiians at the Grand tonight only.

ANOTHER MASKED MARVEL

This fair person of mystery is the "masked hostess" just installed at the Montmartre, on New York's white way. Half a dozen chorus girls, also masked, assist her in entertaining. The marvel of it is that New York, with all its cabaret originality, never thought of this before

BOUDOIR CAP AND GOWN

RICHARDSON DESIGN FOR YOKE AND CAP

By Betty Brown.

Crocheting is one of the fashionable finger employments this summer It is the present fancy to make practical pieces such as the gown yoke and cap of matching pattern designed by Richardson after a choice Cluny original For a dainty but laundry-resisting gown yoke this pattern is excellent.

HAVE ODD NAMES IN BORNEO

Natives Must Have Some Trouble in Keeping Track of Their Changing Cognomens.

It must be a matter of some difficulty for a member of the tribe of Kayans of Borneo to keep track of his own name. Among those people, when a child is born it receives the name of some repulsive object or is simply called "it," so that, not having a distinctive name, the evil spirits cannot identify it and cause it harm.

When the child is two or three or four years old they name it, say, Tijan. The father is thereafter known as Tama Tijan—Tama meaning the "father of"—and the mother is known as Inai Tijan—mother of Tijan. The father's original name, Kebing, for example, is dropped, and frequently it is forgotten unless there are other fathers of Tijans. In that case the father is known as Tama Tijan Kebing—father of Tijan, formerly Kebing.

If Tijan dies, then Tama Tijan's name becomes Oyong Kebing (meaning "Kebing the bereft," provided Tijan was the eldest child). If a younger child dies, the father becomes Akam Kebing; if his wife dies, he becomes Aban Kebing. If he becomes a grandfather, his name will be Laki Kebing. Lagi is distinctly an honorary title, like its equivalent datu among the Malays. With those people datu is superior to the title hadji, borne by one who has made the pilgrimage to Mecca. Datu, literally grandfather, is equivalent to elder with us.

Among the Kayans it is a breach of manners to ask a man what his name is. If a white man does so through ignorance, the man will turn to a bystander and ask that the stranger, who does not know the customs, may be informed. If a man tells his own name, the evil spirits will hear him, and can more readily do him harm.—Youth's Companion.

NEW LEXICON OF THE OPERA

Illuminating Information Compiled for the Benefit and Guidance of the Uninitiated.

Orchestra—A place to leave your hat and coat while smoking a cigarette in the foyer.

When the orchestra starts an ill-mannered crashing to indicate the approach of a finale, the gentlemen arise and adjust their silk toppers. Then in unison they walk briskly down the aisle, tapping cigarettes on monogrammed cases.

On the descent of the curtain the ladies raise their hands aloft in the attitude of prayer, simultaneously bringing the palms together sharply in quick succession. This is supposed to register pleasure that the act is over.

Family Circle—The spot where one hisses the applause and applauds the hisses.

The appearance of the conductor at any time is the signal for rounds of clapping from all those who wish to prove that they are educated to distinguish a conductor from a first violinist. With each shirt of the conductor's vane he of the billowing locks and unstinted tie says, sotto voce, to the girl with the bobbed hair girded by a fillet,

"Ah! The Swansdown motif," or, "This staccato movement heralds the entrance of Ziegfeld."

After the curtain fall, if the shouts of "Bray-O," "Beese" and "On Coore," are sufficiently persistent, the singers are compelled to come out in front in an attempt to quell the disturbance. This is styled a curtain call.—Life.

WHITE UNIFORM FOR COMMENCEMENT

GRADUATE IN UNIFORM

Sioux City, Ia., June 14.—A uniform has been adopted by the 124 girl graduates of the Sioux City high school for their commencement exercises

The frock designed for the young women is an artistic one-piece dress made on correct 1917 lines at a cost of $8.50. The full value of the dress is in the material and labor required to put it together, as seems fitting in war time. Not a penny is wasted in trimming.

The 99 young men belonging to this class will wear suits of blue serge.

Servants as Hosts.

A curious custom exists in the town of Port of Spain, in the island of Trinidad. Every year the servants, who are all black, give a grand ball for their masters and mistresses. The Princes building, a huge place where all public entertainments are held, is engaged, and everything is done in the best style. There are two halls for dancing, one for the servants and the other for their guests, both of which are beautifully decorated.

The best band in the island is engaged, and the guests are given a champagne supper. Etiquette is very strict and precedence rigidly observed by the servants, the governor's butler and his lady going in before the chief justice's groom, and so on.

Romance by the Gourdful.

The gourd does not usually lend itself to romance, yet now and then it has been recalled by people of poetic tendencies in connection with the well sweep and the old oaken bucket. However there is said to be in the possession of a family in Palmyra, Mo., a gourd that was sent 200 years ago from Jamestown Va., to England filled with the seeds of a plant peculiar to that colony, and that was returned a little later refilled with the seed of English flowers. More than a hundred years ago, when the westward migration began, the family carried the gourd to their new home beyond the Mississippi.—Christian Science Monthly.

Iodine Cures Erysipelas.

Dr. W Keppler reports to the Medizinische Klinik of Berlin that a prompt and certain cure of erysipelas is obtained by painting the affected part with a 10 per cent solution of iodine. He accounts for the fact that he has been able to discover only one case of erysipelas among men wounded in the present war by the prompt use of iodine in treating their injuries.

ATTORNEY GENERAL WINS REGENTS CASE IN AUDITING BOARD

Although Lawrence Murphy gave him an awful drubbing in supreme court in the board of regents' case, Attorney General Langer had the last laugh this morning, when on his motion the state auditing board rejected the bill of the Fargo attorneys for $1,095, covering expenses incurred in the successful defense of the state board

The attorney general held first that the bill was not a legitimate charge against the state, and second, that no funds had been appropriated for this purpose.

The state has under other administrations had an emergency fund to meet such charges, but, as one officer remarked this morning, just now this fund is "all shot to pieces"

SANISH BEATS PLAZA AND TIES FOR FIRST

Sanish, N. D., June 14.—Before a crowd estimated at over a thousand people, Sanish defeated the fast Plaza aggregation in a well played game on the home grounds by a score of 6 to 3, going into a tie for first place in the league standing. The features of the game were the pitching of Bird, he striking out 14 of the opposing batsmen and allowing only four widely scattered hits, also the batting of Snore, Vetter and Bird for the home team For Sanish Bird and Dunham was the battery, for Plaza Holcomb and Nichols.

Score by innings.	R	H	E
Sanish..... 020 211 00x	6	9	2
Palaza 000 000 300	3	4	6

Struck out by Bird, 14, by Holcomb, 7; bases on balls, Bird, 1, Holcomb, 1. Umpires, Richardson and Blackburn Time of game, two hours and 10 minutes

TRAIL WAS GOOD

A. C. Shively of Fargo, state agent for the Bankers' Life of Des Moines, with his son, Alan Shively, drove through on the Red Trail last week and reported the highway in tip-top shape.

Hall a Bachelor—Secretary of State Thomas Hall is leading a bachelor's life, while Mrs. Hall and younger children are visiting relatives in Jamestown, Fargo and Minneapolis.

Your Wife's "Allowance" may not expand to meet the increasing cost of foods, but it will buy a sufficient quantity of Shredded Wheat to nourish every member of the family. Two **Shredded Wheat Biscuits** with milk make a good, nourishing breakfast at a cost of a few cents. All the body-building material in the whole wheat grain. For breakfast or dinner with berries, or other fruits.

Maybe You Guess Them and Maybe You Don't; Look Who's Keeping Cards in Race

By PAUL PURMAN.

A few young ball players, some of them never heard of outside the bushes, are putting the St Louis Cardinals on the baseball map

There's a brace of Smiths, J. and F., there's young Cruise and Hornsby

At the fag end of last season you may have heard a little about this Hornsby and someone may have mentioned Jack Smith, but the other two meant nothing in the average fan's life.

But now Cruise is leading the National league in batting. J. Smith is right near the top. Hornsby proved that his last season's performance was not, as many said, a flash in the pan, and F Smith is acquitting himself creditably both with the stick and the glove.

A mighty good acquisition was this said F. Smith. It gave Miller Huggins a chance to move Hornsby from third over to short, where he is of far more value to the club, without weakening the hot corner.

The Cardinals are in the first division and it looks as though they are booked to stay there At least, at this stage there doesn't seem to be much chance of Cincinnati, Brooklyn, Pittsburg or Boston pushing them out.

And this quartet have about as much to do with their being there as anyone.

At the opening of the season the Cardinals were doped as sure eighth positioners They weren't given a chance. Hornsby, critics said, might be good or might be a fizzle. Jack Smith was classed with the mediocre crew. F. Smith and Cruise were neglected.

It's just one of those inexplainable things in baseball, that's all.

Benny Leonard's Boxing Lessons

Left Jab Is Most Effective Punch, Says World Champion.

By BENNY LEONARD.
(Lightweight Champion of the World. Written Especially for The Tribune

With wind and speed taken care of in your plan to be healthy, the next thing to get is the punch

The best punch for a beginner is a left jab It is my best bet It is so easy to score with it and so annoying to an opponent I regard it as one of the greatest assets a boxer can have

When a boxer has a good left hand, he invariably is a good boxer It is of great aid in keeping your opponent at a safe distance when in distress

When I was a novice, my left hand saved me from a whole lot of punishment It is the best blow to meet rushes with

It is good to know how to use this left jab, because you may be attacked on the street some dark night Besides, a left jab develops the arm muscles

To develop a good left jab there is nothing better than shadow boxing Just keep poking your left at an imaginary opponent and work it as fast as you possibly can

Of course, you must have more besides a left jab to be a good boxer, and it would be futile to try to outline a complete course for a man to follow to develop an attack and the punch that he must have to win ring battles

When you have proceeded as far along the route as this you will need expert advice and assistance in developing your own style of attack and defense you will begin to know your own abilities shortcomings, and possibilities and it will be necessary to individualize in your work—to find out what is the most effective thing for you to do to make yourself an accomplished boxer

(Another article by Leonard in The Tribune tomorrow.)

ADVERTISEMENT.

Sealed bids for the construction of a lateral sewer on Broadway from Fourteenth street to Fifteenth street, and on Fifteenth street from Broadway to Avenue B in Sewer Improvement District No. Four, City of Bismarck, North Dakota, will be received by the Board of City Commissioners of said city until eight o'clock p. m., July 9, 1917 Certified check for five hundred ($500) dollars, drawn to the order of A. W. Lucas, president of the City Commission, must accompany each bid. Each bid must also be accompanied by a bidder's bond in a sum equal to the full amount bid. Plans and specifications are on file with the City Auditor and the City Engineer The City Commission reserves the right to reject any or all bids.

C. L. BURTON,
6-14-21-21 City Auditor

Tagore to Women.

When you have lost the power of interest in things that are common, then leisure frightens you with its emptiness because, your natural sensibilities being deadened, there is nothing in your surroundings to occupy attention. Therefore you keep yourselves frantically busy, not in utilizing the time but merely in filling it up.

Our every-day world is like a reed; its true value is not in itself; but those who have the power and the serenity of attention can hear the music which the Infinite plays through its very emptiness. But when you form the habit of valuing the things for themselves, then they are expected furiously to storm your mind, to decoy your soul from her love-tryst of the eternal, and to make you try to smother the voice of the Infinite by the unmeaning rattle of ceaseless movement. —Sir Rabindranath Tagore in The Ladies' Home Journal.

Greater Than Law.

The laws find their root in the credence of the people. A 2-foot stone wall guards my fine pears and melons all summer long from droves of hungry boys, and poor men and women. And if one of these people should question my right and pluck my fruit, I could set the cumbrous machinery of the law in motion, and by good luck of evidence and counsel I might get my right asserted, and that particular offender daunted. But if every passenger should make the like attempt, though the law were perfect, my house would not be worth living in nor my fields worth planting. It is the education of these people into ideas and laws of property, and their loyalty, that makes those stones in the low wall so virtuous.—Emerson.

Locates Well Trouble.

When a 1,400-foot well in a western town was yielding impure water, the superintendent of the water works wondered how he could locate the trouble. Finally he decided to lower a cluster of electric lights into the well, and to follow them by the aid of a fieldglass. The trouble was located at a depth of 130 feet, where loose packing permitted surface water to enter.

Nose for Business.

"Mrs. Sharpe is a woman of wonderfully keen intuition, isn't she?" said Mrs. Gubby. "Oh, remarkably so," responded Mrs. Gabbett. "Why, her husband says she can scent a bargain sale three days before it is advertised in the paper."

Difficult to Translate.

A correspondent sends me another story of the difficulties attending the translation of Biblical references into the Eskimo language. "A missionary talking to his congregation to be held occasion to refer to the 'everlasting crown of glory.' The language did not permit of the precise rendering, so the phrase was turned by the interpreter into the 'heart-cold hat which will never wear out.'"—London Observer.

Singing Prevents Consumption.

A well-known tenor who was in danger of losing his voice once took on a job in one of the petroleum refining rooms as an ordinary employee, with the result that he was soon able to resume his work on the concert platform. Which reminds us that singing is excellent for consumption Sometimes it assists as a cure, but it is nearly always effective as a preventive.

The Origin of "Filibuster."

What is the origin of the word "filibuster?" Charlevoix and others derive it from the occupation of a buccaneer in a "filibote." [illegible] used on the Rhine [illegible] other authority [illegible] given to the [illegible] de Courgues who sailed from [illegible] terre or Limbuster, in France on the famous expedition against Fort Caroline in 1567. It was long current in Spanish as "flibustero" before its adaptation into English.—London Chronicle.

FOUGHT TYPHUS IN SERBIA

Dr. Edward W. Ryan, holder of the cross of the Legion of Honor (shown pinned on his coat), and many Serbian decorations, has returned to Serbia to organize the sanitary and relief work in that country. He goes at the special request of the Serbian government.

This doctor is the idol of all Serbia. When the typhus plague broke out in that country at the beginning of the war, he was left to take care of 2,000 patients all alone, the other doctors and nurses being sick with the disease. Doctor Ryan himself fell a victim to the dread disease shortly after the recovery of some of the other physicians. For his great work during this terrible time he was decorated by the French government with the cross of the Legion of Honor and also honored by the Serbian government.

Education.

It is, no doubt, a very laudable effort, in modern teaching, to render as much as possible of what the young are required to learn easy and interesting. But when this principle is pushed to the length of not requiring them to learn anything but what has been made easy and interesting, one of the chief objects of education is sacrificed.—John Stuart Mill.

Naturally.

Delivering [illegible] lecture at a Sunday school recently [illegible] visitor spoke on the moral development [illegible] of children. "There is a boy here," he said, "and a girl there. What will they become when they grow up?" In a loud whisper one of the [illegible] teacher supplied the answer.—"Sweethearts!"

HOELLINGER ASKS SUPREME COURT TO RESTORE FORTUNE

Minot Man Claims That in Giving Him Divorce, District Court Beggared Him

WOMAN IN THE CASE ATTENDED HEARING

Mrs Katherine Hoellinger of Minot was an interested spectator in supreme court yesterday, when there was argued an appeal filed by her husband, John Hoellinger, from a decision of the Ward county district court, awarding Mrs Hoellinger $58,000 of her husband s estate and the latter freedom from his wife

The Hoellingers are wealthy people, who long have been prominent in hotel circles in Minot Their divorce case was among the most sensational in the history of North Dakota The original suit was filed by Mrs Hoellinger. Her husband followed with a cross bill, and won the decision, so far as the divorce is concerned, but the court found at the same time that Mrs. Hoellinger was entitled to $58,000 worth of her husband's property

Spicy Charges.

Charge and counter charges made in the district court proceedings were decidedly spicy. Each of the contestants charged habitual unfaithfulness and cruelty on the part of the other In appealing to the supreme court, Hoellinger does not object to the divorce, which he asked for, but to surrendering the bulk of his property to his ex-wife.

The Minot man claims that he is not worth to exceed $90,000, and that the portion of his estate given to his wife was the cream of the lot, the balance remaining to him consisting largely of encumbered property

Greenleaf & Wooledge appeared for the appellant, and exJustice E B Goss for the respondent It was Judge Goss' first official appearance in supreme court since his retirement from the bench

METHODIST EPISCOPAL CHURCH SUPPLIES HOME INFLUENCE FOR TROOPS

Facilities Provided in Basement of Building Appreciated by Soldiers

A home influence for the soldier boys quartered at Fort Lincoln is being furnished by McCabe Methodist Episcopal church, and it is winning the appreciation of the troopers.

The entire basement of the church has been turned over to the fighting men. One room is set aside for correspondence with paper envelopes and ink for the boys who wish to write home Adjoining is a reading room with comfortable chairs and a large table covered with all the latest periodicals newspapers and other good literature

Keep Rooms Open Late

The rooms are kept open as long as the boys care to stay which frequently is later than 11 o'clock men of the church alternating in taking charge of this popular feature

Entertainments for the troops are given at frequent intervals The last one of these was attended by 68 guardsmen from Fort Lincoln, who thoroughly enjoyed the program and the society of the townspeople who turned out

Will Conduct Clean-Up

The idea originated with the men's Bible class of the church, who felt that mothers over the state would be glad to know that their boys were given an opportunity to enjoy some of the home comforts amidst good surroundings

The church intends to go further and conduct a moral clean-up of the city whenever such activity may be found necessary. The aim of the men of McCabe, and they have the thorough co-operation of the county and city officers, is to make "Boozeless Bismarck" a model camp in every sense of the word, entirely free from the damning influences which often have ruined young men quartered in the vicinage of larger cities where the open saloon and all that goes with it flourish.

UNITED STATES AND JAPANESE CLASH IN CHINA

Tokio, June 12.—(Delayed). The question of China as it exists between the United States and Japan has been brought sharply to the surface by the note of the United States to China expressing regret over dissension in that country and the wish that tranquility be restored

The impression is here that Great Britain and France since the war began have extended practically a measure of recognition of special privileges to Japan, and the present issue appears to involve the question whether the United States will abandon the perogative of independent action in China and henceforth consult Japan. The following statement of Japan's attitude is furnished to the Associated Press from well informed quarters

"When Japan and the allies were about to urge Yuan Chi Kai, the late president of China, to postpone restoration of the monarchy, the United States was consulted beforehand and invited to participate. The United States replied it favored a republic, but would not interfere in the internal affairs of China

"The recent American note, which virtually was interference, and was sent without consulting Japan, caused surprise It was not until afterwards we were advised and then asked to participate"

The foreign office declines to state what action will be taken.

Rogers Celebrated Hawaiian Troubadors at the Grand Theater Matinee and Tonight Only.

EVERY BANK IN WARD COUNTY IS OVER-SUBSCRIBED

Anticipated That Minot Alone Will Take More Than $60,000 Worth of Bonds

Minot, N. D., June 14—Every bank in Ward county has taken its allotted share of Liberty Bonds, according to the announcement of R. E. Barron, chairman of the Ward county campaign The county will take $150,000.

Minot banks took twice the amount they were asked to take. This city has subscribed $55,000, and an effort will be made tomorrow to boost the total to the expected $60,000. The Boy Scouts' campaign is meeting with success. John Blasdale was the first Minot Scout to earn a war service emblem for selling 10 $50 bonds.

NORTH DAKOTA RAIL MEN HERE REQUEST HIGHER FREIGHT RATE

All Carriers Operating in State Represented at Commission Hearing

Each of North Dakota's railways—the Great Northern, Northern Pacific, Northwestern, Milwaukee line, Soo line, Fairmount & Veblen, Farmers' Grain & Shipping company, Midland Continental and North Dakota—are represented this afternoon at a hearing before the railway commission on the companies' petition for a 15 per cent increase in intrastate rates.

Not all of the companies favor the proposed increase. One or two of the small farmers' lines does not feel that, inasmuch as their ownership is in farmers' hands, they can consistently urge the increase. The entire afternoon was devoted to the presentation of the railways' case. The railway commission already has filed in Washington a formal protest against the proposed increase.

COLD FEET CAUSE TROUBLE

Chilled Extremities May Be Held Responsible for Many Physical Ills, Says Physician.

Cold feet are generally a sign of poor circulation. They usually accompany such diseases as acne and rosacea. Rosacea is that redness of the face that comes from dilatation of the capillaries of the skin and looks like a fine red network, especially about a bulbous nose.

Dr. Douglass W. Montgomery of San Francisco, in an article on Rabelais descriptions of rosacea, quotes a famous English physician in holding that cold feet were the cause of rosacea, adding "it may very well be that he was correct, as chilled extremities, especially in sedentary people, undoubtedly react disadvantageously on the internal organs, causing catarrhs and other congestions and lowering the resistance to infection, and all of these are the steady accompaniments of rosacea.

"Furthermore, those who have rosacea habitually have cold feet, and it is very difficult for them to get them warm."

BABE SLEPT ON TRACK; RAILWAY ASSESSED $3,000

Heavy Damages Awarded Guardian of Minor Who Lost Leg and Arm

Carson, N. D., June 14—Three thousand dollars damages were granted Edmund Dubs, guardian of Rudolph Dubs, a minor, in the Grant county district court this week, for the loss of a leg and an arm on the tracks of the Northern Pacific railway.

July 5, 1912, the infant, accompanied by a watch dog, toddled onto the tracks of the Northern Pacific, near New Leipzig, and fell asleep. The faithful dog curled up alongside the sleeping child. When a Northern Pacific train chanced along, the engineer saw a dog on the track ahead of him, and whistled to warn the animal. The train was only 30 feet away when the dog, which had remained with the youngster, evidently with a view to protecting it from the oncoming danger, leaped up, and the engineer for the first time saw the sleeping child.

The emergency brakes were immediately thrown on, but the momentum of the train was too great, and before it came to a standstill the engine and one car had passed over the little one's body, completely severing an arm and a leg.

The plaintiff's counsel, J K. Murray of Mott, and after deliberating less than three hours a jury awarded the full amount, the first verdict for damages returned by a jury in the new county of Grant. The railway company is expected to appeal.

NEED REPUBLICAN IN CONGRESS SAY FIRST DISTRICT DELEGATES

Bound to Use Every Honorable Means to Procure Nomination of Candidate

Fargo, N. D., June 14.—The 32 delegates elected at the republican county convention held in the court house Wednesday afternoon were instructed by resolutions adopted by the body to 'use every honorable means to secure the nomination to the office of the representative in congress from the First district of a man of staunch Americanism, broad and liberal views, and who will support our American administration in the conduct of the present war, not only because we are Americans, but because we know that our cause is just."

Attorney Emerson Smith of Fargo, elected chairman of the convention, with John D. Wooledge of Fargo, secretary, stated in his opening address to the convention that the First congressional district should send a republican to congress—"a broad-guaged, strong, capable republican congressman."

Enough to Make Him Fight.

Tommy's parents were from the "ould sod," and his father was in the habit of calling him names of which the lad did not approve. Not long ago Tommy returned from school with his clothes very much torn, his face battle-scarred but with a victorious look in his blue Irish eyes.

"An' it's fightin' again ye have bin," his mother said. "Do yez moind what I told yez the last toime?"

"An' I guess ye'd fight, too, if ye'd bin called the dirty name I was," replied Tommy.

"An' what moight that have bin?"

"Willie called me a son of ould Erin."—Mrs. Nettie Harris, Route 7, Parsons, Kan.

JAPAN TO SEND WAR MISSION

Washington, June 14.—Japan will send a mission to the United States. The mission will have broad powers, especially in diplomatic consultation, and is expected to leave Japan during the first part of July.

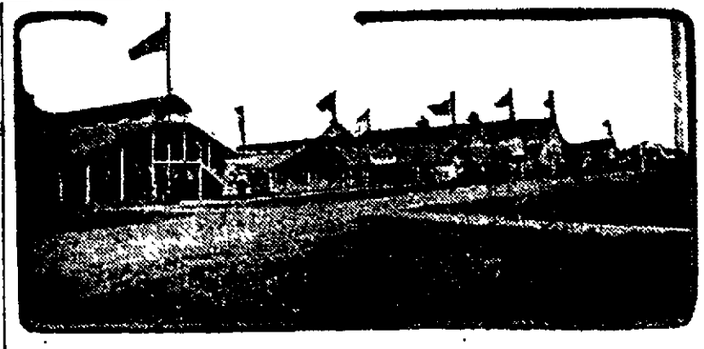
Natural Aristocracy.

The democratic element in modern society is undoubtedly gaining in strength every year, and there is no good reason for lamenting its advance. But it will never do away with the natural aristocracy which has made skill in the conduct of business the endowment or the acquisition of a few. The weakness of co-operative production thus far has been its gross undervaluation of the manager.—Nicholas Paine Gilman.

Wedding Presents in Hungary.

Wedding presents in Hungary are given only to poor couples to help them to get their home together. The girl friends of the bride show attention by making cakes of various kinds to be partaken of at the wedding feast. There is no wedding cake, as we understand it, but each guest receives a kind of sweet cake of the substance of cracknel biscuits made in the form of a ring about ten inches in diameter.

Teamsters' union meeting postponed from Thursday night to 3 p m. Sunday at Labor hall, Third and Main streets.



FAIR WILL INSTRUCT AS WELL AS AMUSE

July 23 to 28, Dates of Big Fargo Event, Will Be Full of Interest For All.

Everybody is looking forward to the week of July 23-28, as most people are counting on it as a week of education, recreation and amusement. These are the dates on which the big Interstate Fair will be held at Fargo and the fair management promises to make this year's show bigger and better than ever before, they being fully alive to the advantages that will accrue to every resident of the state through this annual event, and are sparing neither time, effort nor money toward making this year's fair one of the greatest educational exhibits in the history of the state. Nearly $15,000 is offered by the fair management in prizes and awards in the various departments, which are supplemented by numerous offers of trophies and plate by breeders' associations, commercial clubs and individuals, and the show will, without question, assume immense proportions. The very highest type of all classes of livestock, dairy products, agricultural, horticultural, doricultural and fine art displays, school exhibits and the varied industries will be on exhibition.

The machinery exhibit will be one of the largest in the Northwest. The Merchants Pavilion will be filled with exhibits totaling many thousands of dollars in value, all tending to interest and entertain every visitor at the big Interstate Fair in Fargo, July 23-28

Special days have been designated as follows: Monday, July 23, Preparation Day; Tuesday, July 24, Children's Day, Wednesday, July 25, Old Settlers' Day, Thursday, July 26, Fargo-Moorhead Day; Friday, July 27, Livestock and Auto Day; Saturday, July 28 Automobile Day. It will be a big week of wholesome enjoyment and instruction of the highest class possible to secure and there will be something doing every minute "Meet Me at the Big Interstate Fair."

All Choked Up With Catarrh? Why Continue Makeshift Treatment?

Sprays and douches will never cure you.

Catarrh is annoying enough when it chokes up your nostrils and air passages, causing painful and difficult breathing and other discomforts. But the real danger comes when it reaches down into your lungs

This is why you should at once realize the importance of the proper treatment and lose no time experimenting with worthless remedies which touch only the surface To be rid of Catarrh, you must drive the disease germs out of your blood.

Splendid results have been reported from the use of S. S. S., which completely routs from your blood the Catarrh germs, for which it is a perfect antidote

S. S. S. is sold by all druggists. If you wish medical advice as to the treatment of your own individual case, write to-day to Chief Medical Adviser, Swift Specific Co., Dept. B Atlanta, Ga.
